## Y-Type Closure

FCST16314-I Y-Type Closure is specially developed by FCST for indoor microduct branching applications. Y-Type Closure can be used to connect micro duct of different diameters and can also be used to connect different types of micro duct. Y-Type Closure are widely used in microfluidic systems.

- It has simple structure and easy operation.
- High cost performance and long service life.
- Small size, light weight, easy to carry and install.
- The connection is reliable and the sealing is good.
- Maximum compatible microduct diameter: 40 mm

### Product Specifications

Construction	Description
Duct Size	Max.40mm
Material	Shell: ABS Claw: POM Cap: ABS
Length	280mm   11.024in
Width	172mm   6.772in
Height	64.5mm   2.539in
Weight	430g
Crush	1000N/10mins
Impact	15 Joule
Pull-out	>1000N

Equipped with branch rubber rings, it can branch out 19 holes.

# Fiber Cable Solution Technology Co.,Ltd.

## FCST - Better FTTx, Better Life.

At FCST, we manufacture top-quality microduct connectors, microduct closure, telecom manhole chambers and fiber splice boxes since 2003. Our products boast superior resistance to failure, corrosion, and deposits, and are designed for high performance in extreme temperatures. We prioritize sustainability with mechanical couplers and long-lasting durability.

FCST aspires to a more connected world, believing everyone deserves access to high-speed broadband. We're dedicated to expanding globally, evolving our products, and tackling modern challenges with innovative solutions. As technology advances and connects billions more devices, FCST helps developing regions leapfrog outdated technologies with sustainable solutions, evolving from a small company to a global leader in future fiber cable needs.
