FCST-CR120-TEE-CVR Horizontal Tee Cover

The fiber optic raceway horizontal tee cover is a protective panel specifically designed for use with the horizontal tee raceway body. It is used to cover "T"-shaped branch connections, enclosing the routing area and protecting the internal optical fibers from external interference, while maintaining the overall enclosure and aesthetic appeal of the raceway system.

- For 120mm fiber optic raceway tee covers.
- Compliant with the UL94-V0 fire safety standard.
- Its design harmonizes with the straight-section cover plates; once installed, the surface is smooth and seamless, helping data centers achieve standardized and refined management.

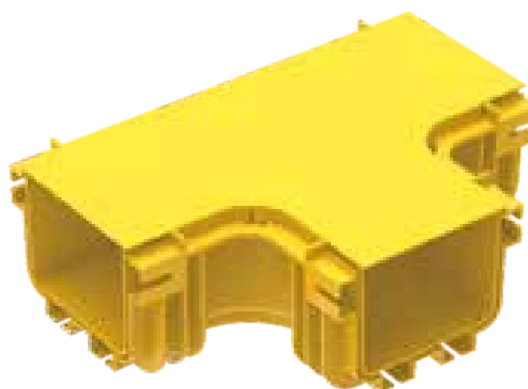

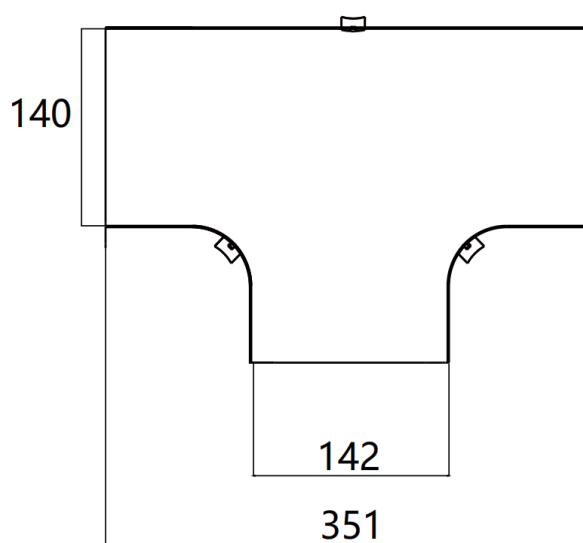

Product Specifications

Construction	Description
Material	ABS
Flame-retardant Rating	V0
Packaging	60PCS/CNT 7.8KG
Weight	130g

Product Structure

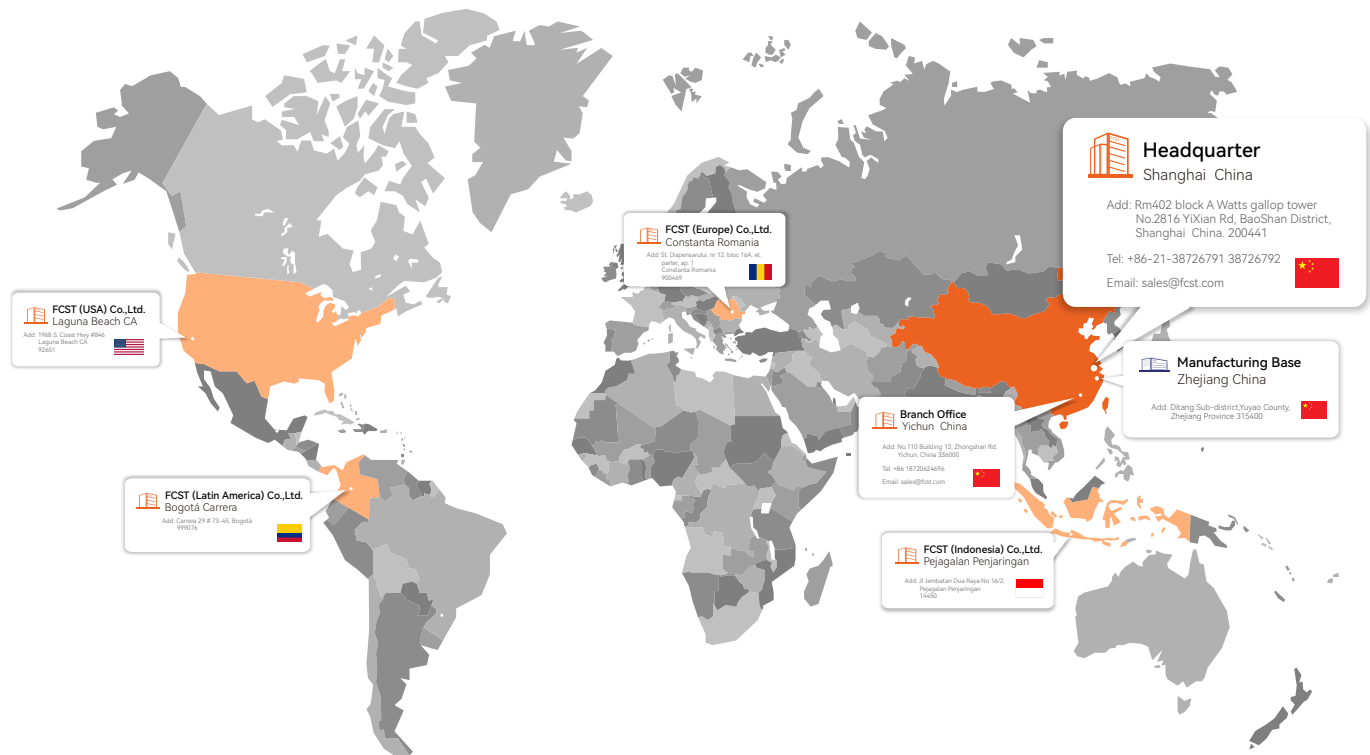

Unit:mm

Better FTTx, Better Life.

Fiber Cable Solution Technology Co.,Ltd.

FCST - Better FTTx, Better Life.

At FCST, we manufacture top-quality microduct connectors, microduct closure, telecom manhole chambers and fiber splice boxes since 2003. Our products boast superior resistance to failure, corrosion, and deposits, and are designed for high performance in extreme temperatures. We prioritize sustainability with mechanical couplers and long-lasting durability.

FCST aspires to a more connected world, believing everyone deserves access to high-speed broadband. We're dedicated to expanding globally, evolving our products, and tackling modern challenges with innovative solutions. As technology advances and connects billions more devices, FCST helps developing regions leapfrog outdated technologies with sustainable solutions, evolving from a small company to a global leader in future fiber cable needs.
