FCST-CR120-TEE Horizontal Tee

The horizontal tee is a core connector in the cabling system, used to create a "T"-shaped branch connection within the horizontal plane of the fiber optic raceway. It splits the main cable route into different directions, addressing complex routing requirements in equipment rooms and ensuring cables remain undamaged at turns or junctions.

- Compliant with the UL94-V0 fire safety standard.
- Used for connecting 120mm fiber optic raceway horizontal tees.
- Features a modular design that supports rapid assembly and installation without complex tools, facilitating future line modifications, maintenance, and system expansion.

Product Specifications

Construction	Description
Material	ABS
Flame-retardant Rating	V0
Packaging	10PCS/CNT 5.5KG
Weight	550g

Product Structure

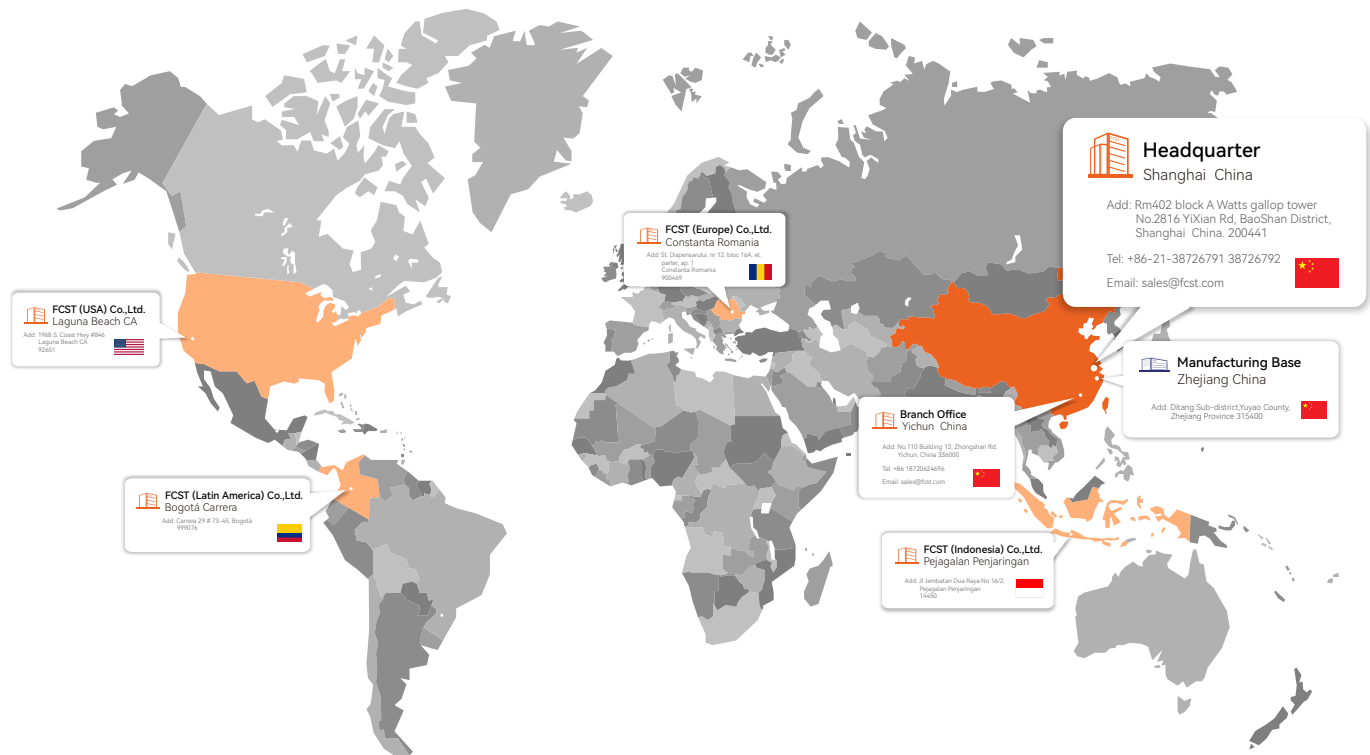

Unit:mm

Better FTTx, Better Life.

Fiber Cable Solution Technology Co.,Ltd.

FCST - Better FTTx, Better Life.

At FCST, we manufacture top-quality microduct connectors, microduct closure, telecom manhole chambers and fiber splice boxes since 2003. Our products boast superior resistance to failure, corrosion, and deposits, and are designed for high performance in extreme temperatures. We prioritize sustainability with mechanical couplers and long-lasting durability.

FCST aspires to a more connected world, believing everyone deserves access to high-speed broadband. We're dedicated to expanding globally, evolving our products, and tackling modern challenges with innovative solutions. As technology advances and connects billions more devices, FCST helps developing regions leapfrog outdated technologies with sustainable solutions, evolving from a small company to a global leader in future fiber cable needs.
