Matching FAT

Matching Fiber Splice Tray

Product Overview

FCST090104 Pedestal Model is suitable for the protection of optical cable and optical communication equipment connection. Through the pigtail spliced with the incoming cable inside the box, the signal is led out directly to realize the wiring function. It is suitable for floor installation outdoors.

Product Advantages

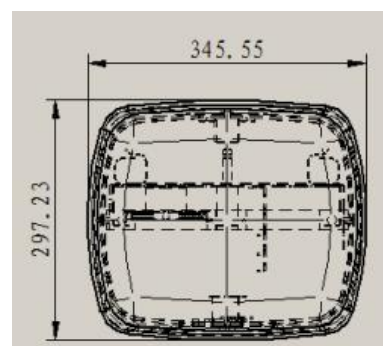

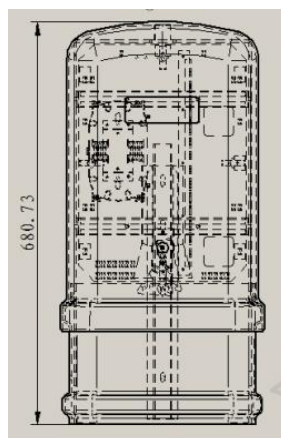

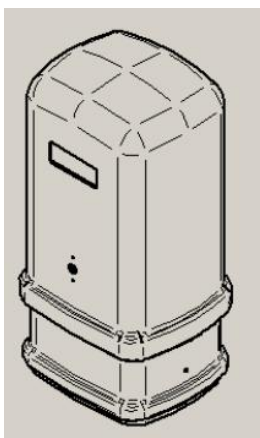

- Provide protection for optical cable distribution, which is waterproof and dustproof;
- Internal metal parts are electrostatic sprayed with uniform color and elegant appearance.
- Independent optical fiber splicing area, adapter connection area and cable wiring parking area, easy to operate and maintain;
- The box body is upper and lower structure. After opened, it can be operated on both sides of the front and back without shielding.

Product Specifications

Construction	Description
Max. Capacity	144 cores (single core)
Dimension (mm)	346*298*681
Weight(kg)	7.4
Fiber Radius Of Curvature(mm)	≥ 40
Fiber Optic Disk Additional Loss(dB)	≤ 0.01
Floor Mounting Hole Distance(mm)	260

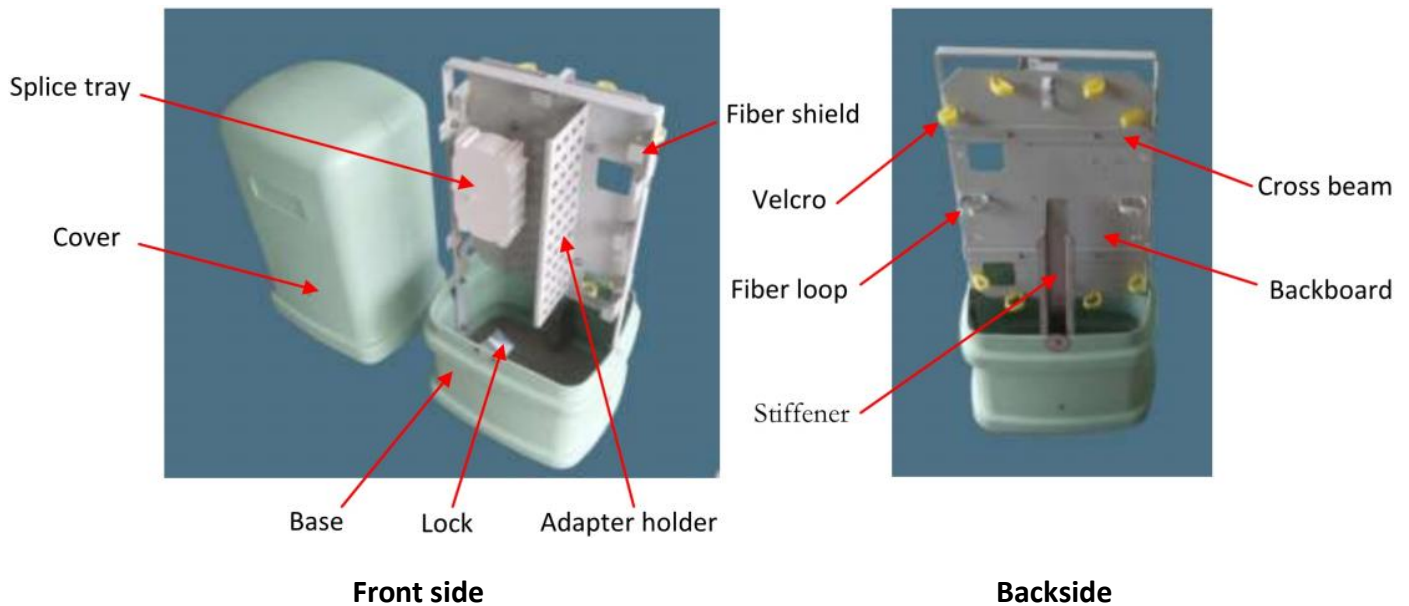

Product Size

Unit: mm

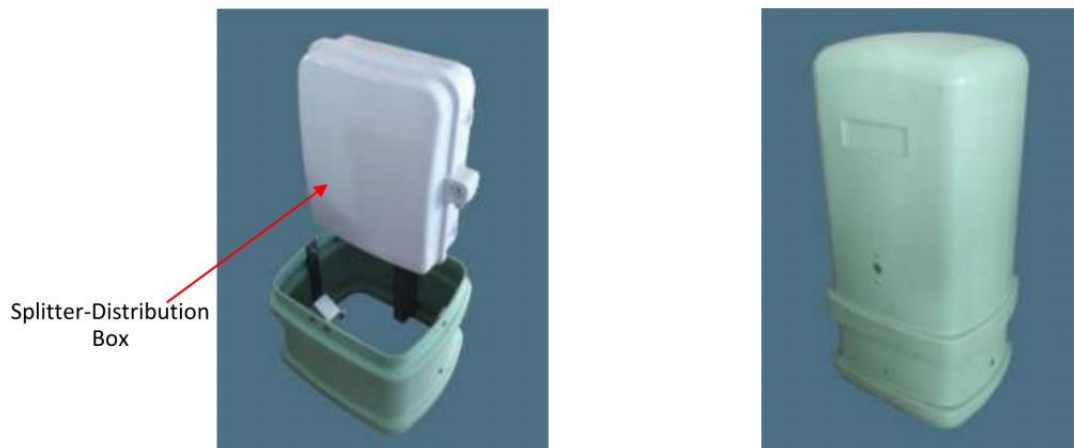

Product Structure

The First Structure

The Second Structure

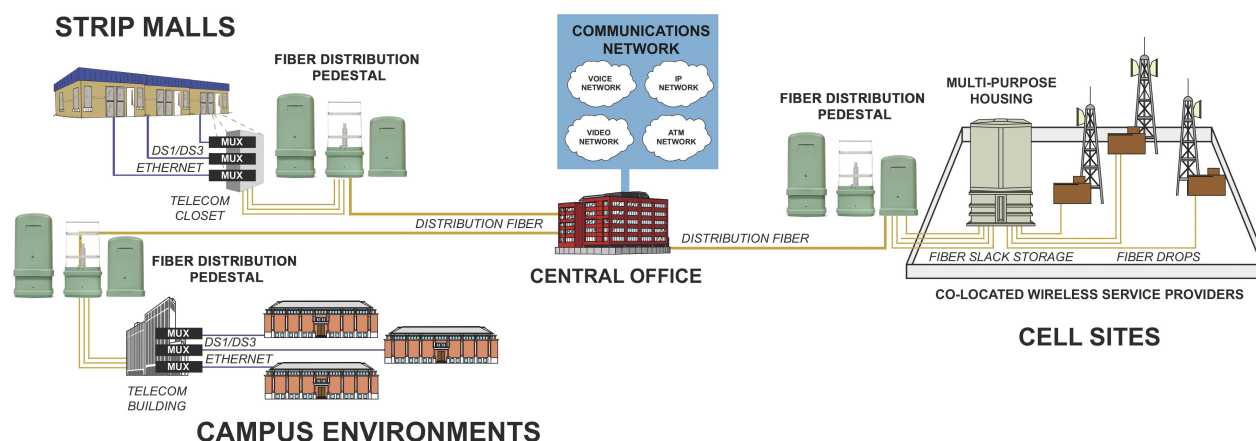

Remove the backboard,splice tray,adapter holder, and install the splitter distribution box on the cross beam(can match different types of distribution boxes).

Packing Information

Name	Quantity
Fused Fiber Package	configured according to the number of cores
Round Head Screw M2x5	configured by flange number
Bare Fiber Protection Tube $\varnothing 4 \times 400$	one for every 12 cores

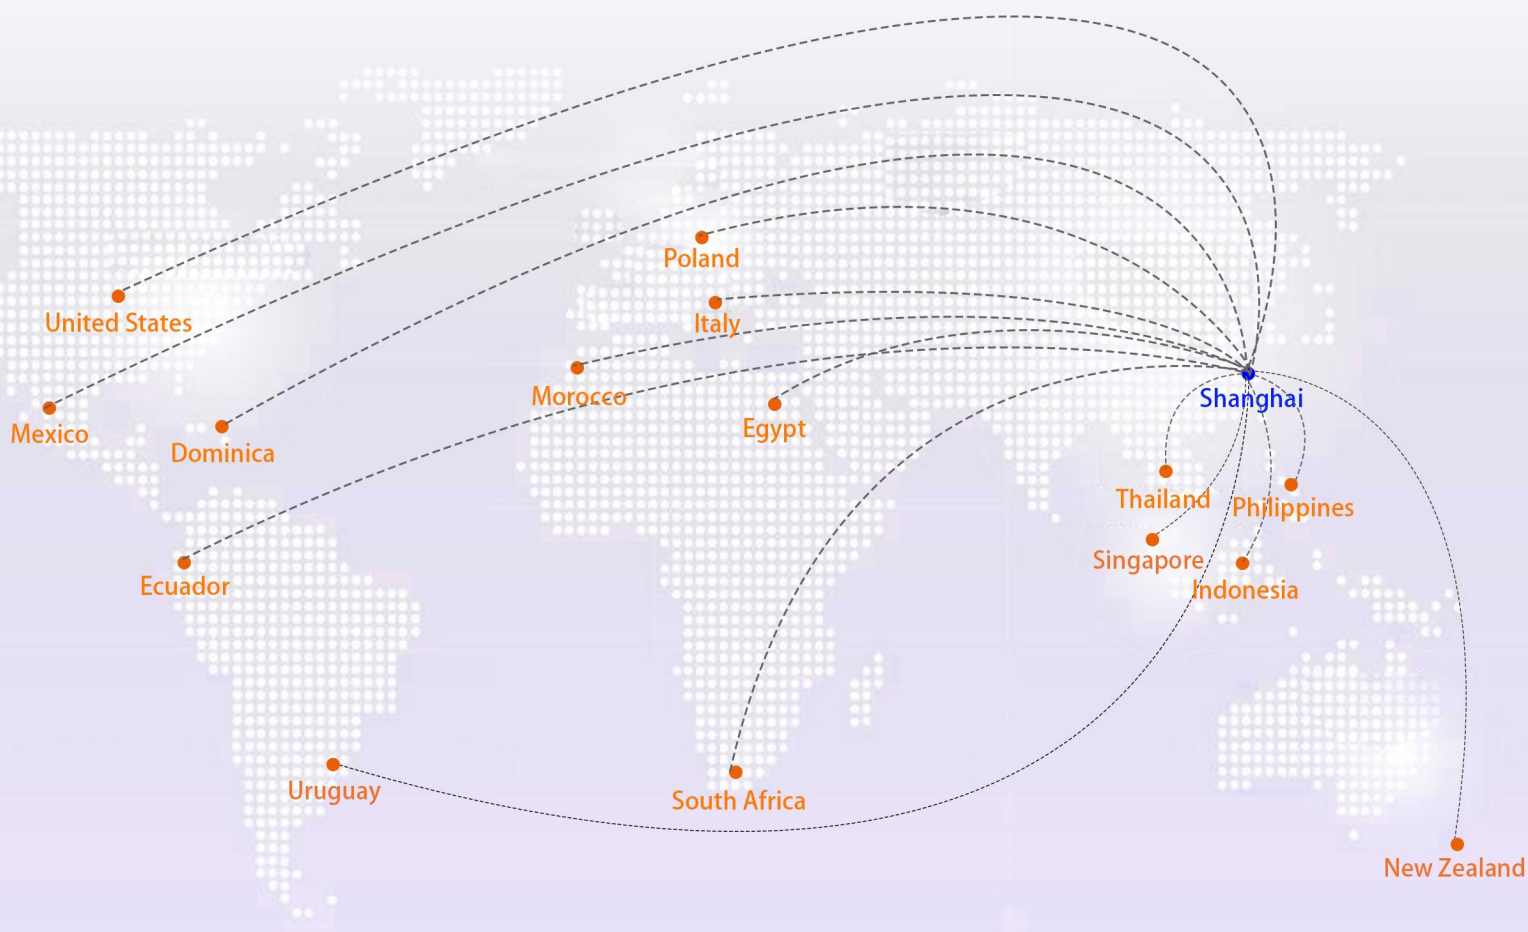

Product Application

- Widely used in FTTX Network.
- Telecommunication Networks.
- Data communications Networks and Local Area Networks.

Fiber Cable Solution Technology Co.,Ltd.

Overseas Agency

FCST - Better FTTx, Better Life.

We offer 4 solutions

- FTTH ODN Solution
- Underground Cable Installation Solution
- Aerial Cable Installation Solution
- Fiber Tools & Test Solution

As a FTTx solution supplier, we can also do ODM according to project. We will continue to innovate and contribute more to the construction of the global optical fiber network.

Rm402 block A Watts gallop tower No.2816 YiXian Rd, BaoShan District, Shanghai 200441.
