

Single Motor

Double Motor

PRODUCT DESCRIPTION

MikroJet04 is an air blowing machine for optic cables, ideal for economical insertion of fiber cables into thin wall HDPE ducts. Compact size, simple and reliable structure as well as high fiber compatibility, MikroJet04 is Most popular product for FTTH,FTTx,etc infrastructure. It is appropriate for fiber cable diameter from 2.5mm to 16 mm.

DESIGN FEATURES

- Compatible with fiber cables from 2.5 mm to 16 mm.
- Supporting duct size: 8~63mm.
- Quick-change belt mechanism.
- Half-automatique system of the pressure of the belt.
- Digital Counter (for cable speed and distance)
- Forward/reverse feed with manual forward feed and optional anti-reverse provisions.
- Engineered cable stability system.
- Comes with full adaptor & seal kit.
- Waterproof case designed for transport on UTV or EXTV applications.
- 2-year service warranty and 10-year spare parts warranty.

TECHNICAL CHARACTERISTICS

Construction	Description
Micro Cable Diameter	2.5~16mm
Micro Tube Diameter	8~63mm(8/12/14/16/20/25/32/40/50/63mm)
Blowing Distance / Max	1500m(Single Motor) 3000m(Double Motors)
Blowing Speed / Max	150 m/min(Single Motor)
Pushing Force	0~50kg(Single Motor)
Work Pressure / Max	15 bar
Dimensions (L*W*H)	200*350*300mm 7.87*13.78*11.81in
Weight (approx.)	35kg
Power Source	Air Motor
Pusher	Rubber Belt
Warranty Period	48months
BePusher Sets(mm)	2.5~4.0mm/5~8mm/9~12mm/13~16mm
Applications	FTTH/FTTx, micro cable networks,backbone
Minimum Air Consumption(at 12 bar)	0~8mm :1m ³ /min 40~50 CFM 8~12mm :2m ³ /min 100~120 CFM 12~16mm :3m ³ /min 150 CFM 16~20mm :4m ³ /min 200 CFM 20~32mm :5~6m ³ /min 300 CFM

STANDARD ACCESSORIES

- All sizes supported by duct adapters.
- Cable seals for the respective cable diameters.
- Digital length counter pre-installed.
- Set of Allen keys and screws.
- Protective and storage case.
